Hello! It is lovely to meet you! My name is Emma Hay. For the past 3 years I have been working full time from my home office in sunny Brisbane, as a Children's book Illustrator and Designer. Working with wonderful Indie Authors I have illustrated 15 titles. I am an efficient worker accustomed to working within both long and short deadlines. I like to constantly challenge myself to develop my unique Australiana Style, further develop my skills in Design and Illustration, and continue to build connections in the kid lit world.

I love being involved in all aspects of the Children's Picture book world, often going to events, visiting schools, talking on panels and gladly chatting about kidlit with anyone who will listen! Children's books are my passion and I am so proud of all I have achieved in the short 3 years I have been working in this incredible industry.
